User Story	Task	Task Assigned to	Estimated Effort (in hours per person)	Actual Effort	Done	Notes
I want to add activities	features added to activities	Kamron	4h	no	maybe	he should really start
I am an user and want to compare progress with people that I'm following	Link leaderboard and graph to the database	Julius	10h	12h	yeap	done :D
I want to see my stats on the profile screen and achievements	Add total co2 reduction counter to profile along with other stats+ dropdown list for people following you+ average points per day and position relative to people you follow+ design achievements	Vlad	8h	6h	no	he should probably do the achievements, and use a different implementation than the dropdown
I want to have a separate	Add registration	Jahson	5h	6/7h	yes, except for the	
I want to see real co2 consumption data from a reputable source	Connect database to A	Paul+Pablo	10h	10h	100% done	just merging it should get the full workflow running!

Main Problems Encountered

Problem 1	Communication
Description	We didnt communicate clearly about merging and branching, so we had to reapprove it multiple times
Reaction	It sucked because pablo had to reapprove after his basketball game

Problem 2

Description

Reactions

Adjustments for next Sprint Plan

Maybe work on different branches

Limit expectiations to be a bit more realistic
